Application

The 9000 Series consists of the Model 9010 deadbolt and Models 9017 and 9025 automatic deadlocking latches. In a detention facility, these locks are appropriate for securing utility access doors and small in-door shutters such as a food pass. Commercial building application possibilities are numerous and include the locking of all types of panels that provide access to mechanical spaces. The 9000 Series is not recommended for use on full-size passage doors.

Model 9010 – A deadbolt requiring key locking and unlocking. It is fitted to accept a standard commercial mortise key cylinder with a "Yale" cam.

Model 9017 – An automatic deadlocking latch affording the convenience of "slam" locking. It is fitted to accept a standard commercial mortise key cylinder with a "Yale" cam.

Model 9025 – An automatic deadlocking latch affording the convenience of "slam" locking. It is fitted to accept an RRBSL proprietary Mogul key cylinder.

9000

Food Pass/Access Panel Locks – Mortise or Surface Applied
