Southern Folger Employees Get Certified in CPR

In an emergency, every second counts—and knowing what to do can make all the difference. That's why Southern Folger was proud to host a CPR training class for our employees on June 25th. A total of 25 team members participated in the hands-on course, gaining the skills and confidence needed to respond to critical situations in the workplace and beyond.

The training was conducted by Adventure CPR, an organization known for its engaging, practical approach to life-saving instruction. Led by experienced healthcare professionals, the class focused on real-life applications and hands-on practice to ensure participants walked away prepared and empowered.

Jerri Galan, one of the employees who completed the training, shared her experience: "Before ... I would have been nervous about it. Now I think I would feel more confident about giving CPR." She praised the class as both informative and empowering. "You never going to be prepared," she added, "but you'll at least know what to do and be confident." Galan also encouraged others to sign up the next time training is offered.

The class was held from 8:00 a.m. to 12:00 p.m. in Southern Folger's newly renovated training center, the session marked an important milestone—not just for our employees, but for the expanded use of the updated facility.

This CPR course is a powerful example of how Southern Folger is investing in the safety, knowledge, and personal development of our team. A big congratulations to our 25 newly certified employees—you are an essential part of making our workplace safer for everyone.

Hard Work Pays off!

If there's one thing Southern Folger knows how to do, it's work hard—and the results speak for themselves! Thanks to everyone's dedication and teamwork, we successfully reached our Level 2 Goal for April and May. Achievements like this don't happen by accident—they happen because of the effort and collaboration of every member of the Southern Folger team.

To show our appreciation, we're excited to announce a four-day weekend in July! That's right—you'll have both July 3rd and 4th off to relax and recharge.

But that's not all—there's another opportunity on the horizon! If we continue pushing forward and hit our June Level 2 shipment target, Southern Folger will be holding a gift card raffle to celebrate another milestone met.

Let's keep the momentum going. Great things happen when we work together!

A Safety Tip

“SAFETY. IT'S NOT JUST A JOB,
IT'S A WAY OF LIFE”

**From John Legros Director of
Safety**

Our New Website Is Almost Here!

We're putting the finishing touches on the brand-new Southern Folger website! Once live, the site will be a one-stop resource for both customers and employees—featuring product details, company information, and access to every edition of our newsletter. Keep an eye out for the launch and be sure to explore all the ways Southern Folger is growing and evolving online!

Stay Cool and Hydrated This Summer!

We know how hard you work every day—and when the Texas sun is blazing, the job gets even tougher. To help you beat the heat and stay energized, Southern Folger is continuing our summer hydration program! Starting at 12:00 PM daily, employees can stop by the Main Building Breezeway to grab cold bottled water, Gatorade, and refreshing popsicles—perfect for cooling off during a hot shift.

With summer temperatures regularly reaching the 90s and above, staying hydrated isn't just important—it's essential. Proper hydration helps prevent fatigue, heat-related illness, and supports your overall performance and safety on the job. So take a quick break, grab a drink or a treat, and remember: keeping cool helps you keep going. We appreciate your dedication, and we're proud to support the team that keeps Southern Folger running strong.

A Word From our President Stronger Together: Breaking Down Silos to Improve Lead Times

I'm excited to share some great news—our new training center is almost ready! It's been a long time coming. We haven't been able to offer in-person training since before COVID, and with everything that's happened since—including our purchase of RR Brink—it's taken some time to get here. But we've put in the work and invested the resources to bring it back, and we're doing it in a big way.

We've completely renovated our old construction management building and turned it into a top-tier training center. This new space will allow us to offer hands-on locksmith training and DEC-certified courses, giving our industry the kind of education and support it's been missing for years now.

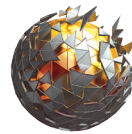

Whether you're a contractor, a facility tech, or part of our distribution network, this is going to be a place to sharpen your skills, stay current, and connect with others in the field. We're proud of what's coming and can't wait to open the doors.

Thanks for being part of this journey with us. More to come soon!
