

CALL US TODAY TO SCHEDULE YOUR ONSITE TOUCH SCREEN DEMONSTRATION

Touch screen technology's advantages include:

- Integrated, single point of control for all electronic equipment in the facility.
- Easy, interactive operation with customized graphical user interface.
- Mandatory two-step processes prevent operational error.
- Available in sizes to fit in existing control room space.
- Software applications tailored for unique facility requirements.

Whether upgrading your facility's existing electronic controls, or converting from hard panel to touch screen, Southern Folger works with you for the right solution! Call 210-531-2701 or email onesource@southernfolger.com to schedule an onsite demo.
